

Financial security

for your international conference in
The Netherlands

www.vgfholland.nl

When you organise a conference, you have 3 challenges:

- 1 The scientific programme
- 2 The logistics organisation
- 3 The financing of the conference

The Pre-financing & Guarantee Fund (PGF) is intended to support you with the 3rd challenge. **The finances.**

Established by the Ministry of Economic Affairs, the Netherlands Board of Tourism & Conventions and around 20 parties from the conference industry, the aim of the VGF is to reduce certain financial risks when organising an international conference in the Netherlands.

Two unique schemes have been created for this purpose:

The Pre-Financing Scheme

Focused on the cost side of the conference. Through a free and interest-free loan, we offer financial support in the start-up phase of the conference to cover the initial costs before registration fees and sponsorship contributions come in.

The Guarantee Scheme

Focused on congress revenues. By means of a guarantee, which is also free of charge, we offer financial support by acting as guarantor for losses that arises from a disappointing number of participants.

The amount of both the pre-financing and the guarantee depends on a number of aspects, such as the size of the conference, the budget and the number of participants.

How to register?

More information about our services and the conditions for qualifying for Pre-Financing and/or Guarantee can be found at www.vgfholland.nl. You can also send an email to info@vgfholland.nl.
